

Additional Questions in the OR Case Request Order

Expected Go Live Date	5/7/2020
Impacted Locations	All
Intended Audience	Physicians/APPs, Clinical & Clerical Staff

Scheduled surgical cases can require use of such resources (ICU, vent, post discharge bed). As we begin to increase the number of surgical cases being done each day, we need to understand the specific resources needed to insure we have availability to accommodate. This tip sheet will show the new questions you will see when ordering a case request.

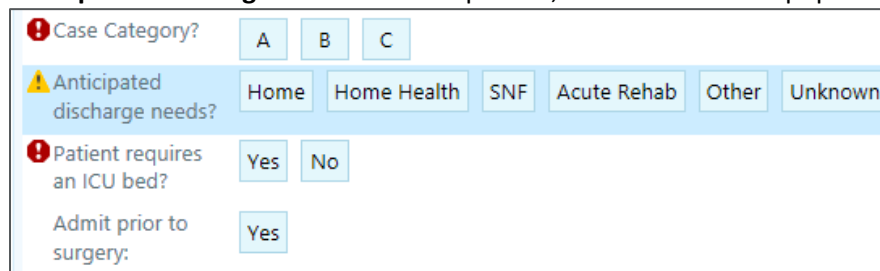

Prep for Procedure

1. Navigate to the **Prep for Procedure** activity by clicking the button on the Hyperspace toolbar or, if already in an office visit encounter, by clicking the **Action Menu>Prep for Procedure**.

2. A **Prep for Procedure** encounter type opens.
3. Navigate to the **Orders** section.
4. In the **Inpatient and Outpatient Additional Orders** search field, type 'case' and press Enter on the keyboard.
5. Select the **OR Case Request** order.
6. Fill out all relevant fields.
7. After the Panel 1 section, you will see the new questions.

- **Case Category:** A= Emergent, B= Need to move forward with procedure/surgery, C= Elective and can wait until adequate resources are available
- **Anticipated discharge needs?:** For outpatient, select **Home** or skip question

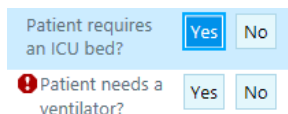

Case Category? A B C
