

1. In the Play Store, search for **Intune Company Portal** application.
2. **Install** Intune Company Portal.
3. **Open** Intune Company Portal.

4. In Company Portal, select **Sign In**.
5. You will see the Microsoft Intune screen. Sign in with either your email address or NM username: email@nm.org or nmusername@nm.org (nm_@nm.org).
6. After signing in, a 6-digit code will be sent to your mobile or Microsoft Authenticator app in order to properly verify access.
7. Enter your 6-digit code.

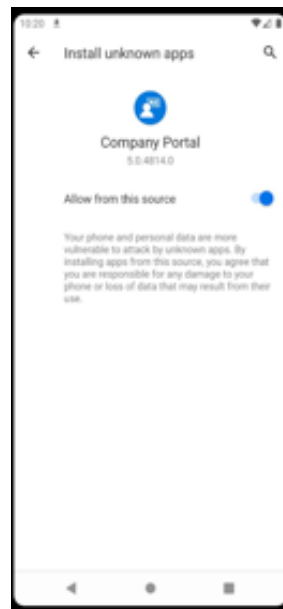

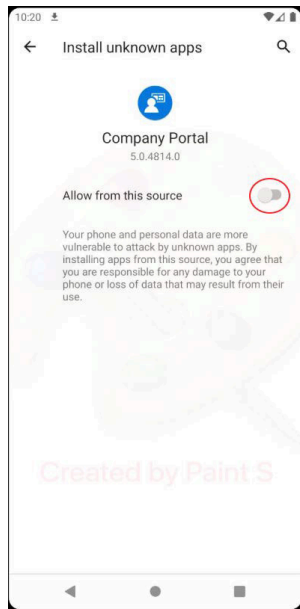

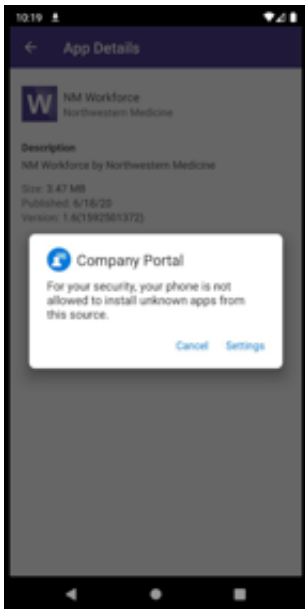

Android NM Workforce Tip Sheet

- From the Apps category list in the Company Portal, select **NM Workforce**.
- Select **Install**.

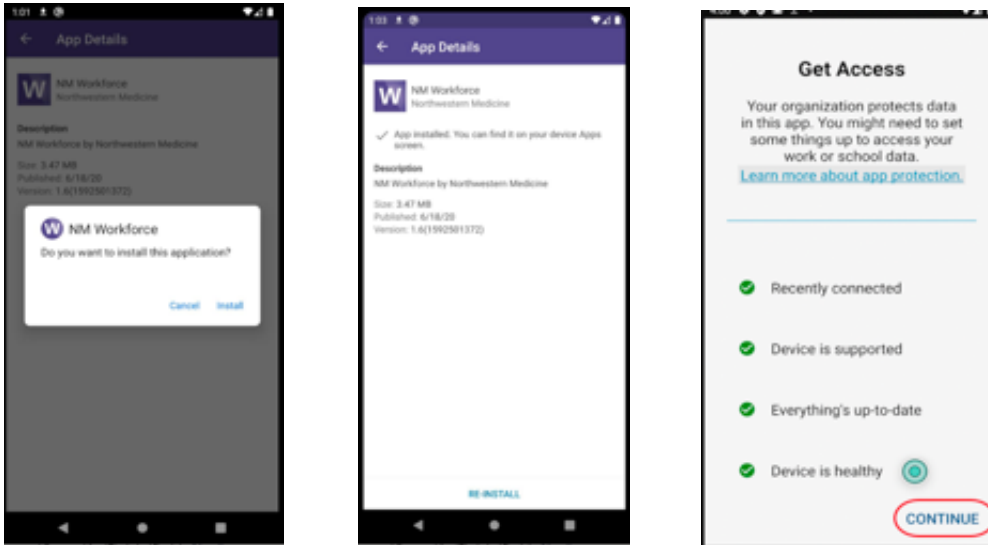

- At the **Company Portal Security Prompt**, select **Settings**.
- Tap the **toggle switch** to "Allow from this source."
- Verify the gear is active (blue) in order to continue.

Android NM Workforce Tip Sheet

13. For NM Workforce, when prompted, "Do you want to install this application?" select **Install**.
14. Under App Details, verify the application is installed.
15. Select **Continue** on the Get Access prompt.
16. Enter a 4-digit PIN and confirm it.

17. Open the NM Workforce application and log in with your AD credentials
18. Your device will have both the Company Portal app and NM Workforce app appear as seen below.
