

COVID Pre-Op Ordering Interventional Lab

Expected Go Live Date	5/21/2020
Impacted Locations	Interventional Lab
Intended Audience	Interventional Lab RN

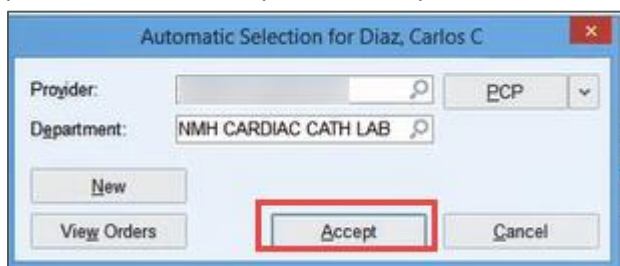

Invasive staff can use orders only to place orders for COVID-19 testing prior to a scheduled procedure.

Covid-19 Testing Outpatient

1. When you need to place a COVID-19 pre-op test, open an Orders Only encounter. Search for Orders Only in the upper right side of the screen.

2. Look up the patient.
3. When the pop up box appears, enter the ordering provider as the order provider for the procedure. Click Accept when complete.

4. Click Add Order at the bottom left side of the screen.

5. Search for COVID.

6. Select the COVID-19 Testing Outpatient order, click Accept.

7. The order panel details will open. Select the Pre-Testing Scheduled Procedures & **choose the correct collection center**. Click Accept when complete.

8. Choose Pre-Admission Testing and sign the order

9. Continue with your normal orders with placing orders.
10. Sign the visit when complete.
