**Locate the Referring Provider**

Locate the Authorizing Provider information from the Referrals or Other Orders tab in Chart Review.

The Scheduling Instructions in the referral order specify the provider will be designated as the authorizing provider upon administration.
Order the Plan

The Bamlanivimab EUA IVPB therapy plan will be ordered in the infusion appointment.

1. Search the term BAM in the Infectious Disease section of the Therapy Plans activity.

2. Enter the Lead provider from the referral order found in Chart Review. If the provider is not available in the database, this field may be left blank.

3. Associate or add a diagnosis, then select Assign Plan.

4. Links to the Bamlanivimab Fact Sheet are included in the Plan Communication order. Copy and paste the link into a browser and print for the patient if needed.
5. Locate the bamlanivimab treatment medication order and confirm the Bamlanivimab Fact Sheet for Patients/Caregivers has been provided to the patient and/or caregiver.

6. Select Yes at the hard stop in the order to certify it.

7. Sign the plan.

8. Select Per Protocol with cosign and complete the remaining fields.

9. Select Accept.
